# SMART PEAKFLOW

is a compact digital peak expiratory flow meter (PEFM) that **connects to any Android and iOS** smartphones.

Using the Smart Peak **Flow app**, users can take and record their **peak flow measurement in the comfort of their own home** and share the results with their healthcare professional.

The smartphone enabled device **is designed to be used as a self-monitoring tool** for those with a respiratory condition (asthma).

## Key Features

- Universal 60-800 L/min range
- Android and iOS Compatible
- Traffic light health indicator
- Track progress over time
- Share results
- Bluetooth technology
- Easy to set up
- Simple to use
- No paper charts
- Set reminders
- Ergonomically designed detachable mouthpiece

## The Gold Standard in HOME ASTHMA MANAGEMENT

Peak flow monitoring is recognised as the gold standard in asthma management. **Keeping** accurate peak flow records manually has proven to be difficult, if not impossible.

With Smart Peak Flow's automatic recording and visual charting, users and healthcare professionals can finally say goodbye to unreliable data and paper charts.

Smart Peak Flow has simplified asthma homecare by bringing it directly into the hands of patients across the world. Using exactly the same technology as a diagnostic spirometer, the small device guarantees more accurate peak flow measurements than mechanical peak flow meters.

## Smart technology THAT FITS IN THE PALM OF YOUR HAND

Whilst the ergonomic and light-weight design makes Smart Peak Flow comfortable to hold and easy to carry around, the user-friendly interface of the app makes it remarkably easy and intuitive to use.

The Device does not even require additional batteries to operate

The app will ask the user to perform three blows and will save the highest of the three values as the result. After the test is complete, the user is able to manually save notes about their symptoms. Test results are then shown in a **Chart** view, where users can get an excellent overview of the progress of their condition.

## Technical specifications SMARTPEAKFLOW

<b>Device category:</b>	Digital peak expiratory flow meter (PEFM)
<b>Measurement principle:</b>	Light interruption
<b>Applicable source of light:</b>	Volfram-, halogen-, LED and natural light
<b>Required strength of illuminance:</b>	Min. 100 lux
<b>Communication interface:</b>	Bluetooth technology – 3.5mm audio jack
<b>Power source:</b>	Connected smartphone's battery
<b>Voltage supply:</b>	Max. 5V DC
<b>Measurement range:</b>	60-800 L/min
<b>Accuracy:</b>	± 10%
<b>Dimensions:</b>	Turbine: 54x32x39mm   Mouthpiece: 39x33x33mm
<b>IP protection level:</b>	IP22
<b>Operating conditions:</b>	Temperature: min. 0° C, max. 50° C Humidity: min. 10% RH; max. 95% RH
